SUMMARY Aspiring Software Engineering student currently pursuing B.Tech in Computer Science Engineering (Artificial Intelligence) with a strong interest in building practical software systems that solve real student and productivity challenges. Hands-on experience in full stack web development, progressive web applications, Python-based analytical tools, and API-driven solutions through academic, internship, and self-initiated projects. Continuously strengthening problem-solving ability through Data Structures & Algorithms and focused on growing into scalable software engineering and intelligent systems development.

Education **Pydah College of Engineering** Jan 2024 - Jan 2028
B.Tech, Computer Science Engineering (Artificial Intelligence)
Pydah College of Engineering — B.Tech in Computer Science Engineering (Artificial Intelligence)
2024 - 2028 | CGPA: 8.65

Pydah College of Engineering
Diploma, Artificial Intelligence & Machine Learning
Diploma in Artificial Intelligence & Machine Learning
Completed with practical exposure to machine learning workflows, Python implementation, and intelligent systems fundamentals.

Experience **AvaIntern Edutech Pvt Ltd** Nov 2024 - Apr 2025
Full Stack Web Development Intern
Full Stack Web Development Intern — AvaIntern Edutech Pvt Ltd (Nov 2024 - Apr 2025): Completed a 6-month project-based internship focused on full stack web development fundamentals, responsive UI engineering, frontend-backend workflow understanding, and practical software deployment concepts through guided technical assignments.

Skills AIML, Software Deployment, Full-Stack Development, Technical Solution, REST APIs, GitHub, Data Structures, Machine Learning, Problem Solving, Algorithms, Git, Software Engineers, Technical Solution Development, Progressive Web Applications (PWAs), Fastapi, Cascading Style Sheets (CSS), Python (Programming Language), Computer Science, JavaScript, HTML, SQL, Communication, C++, Leadership
